

# TRANSCONNECT®

MIT LOW-CODE DAS  
LIEFERKETTENSORGFALTSPFLICHTENGESETZ MEISTERN

## There was a customer ...

(Automotive Supplier, Saxony)

... that wanted a  
digital product passport - **asap!**

And in the future,

–an energy monitoring

–an emission reporting

–a supply chain reporting

# It's all about information availability!

Where to find what ...

Fulfilling upcoming reporting regulations means consolidating information from a wide range of sources.

Good news: most of the necessary information is already available technically!

=> See figure

The **Digital Product Passport** is just a part of this data space.

– a supply chain reporting

ERP = Enterprise Resource Planning System  
 MES/PLC = Manufacturing Execution System / Programmable Logic Controller  
 MDE/BDE = Machine data acquisition / production data acquisition  
 xRM = Supplier & Customer Relationship Management System  
 TMS = Transport Management System

# Crucial – choosing the right data flow architecture

The digital product passport as **crucial instrument**

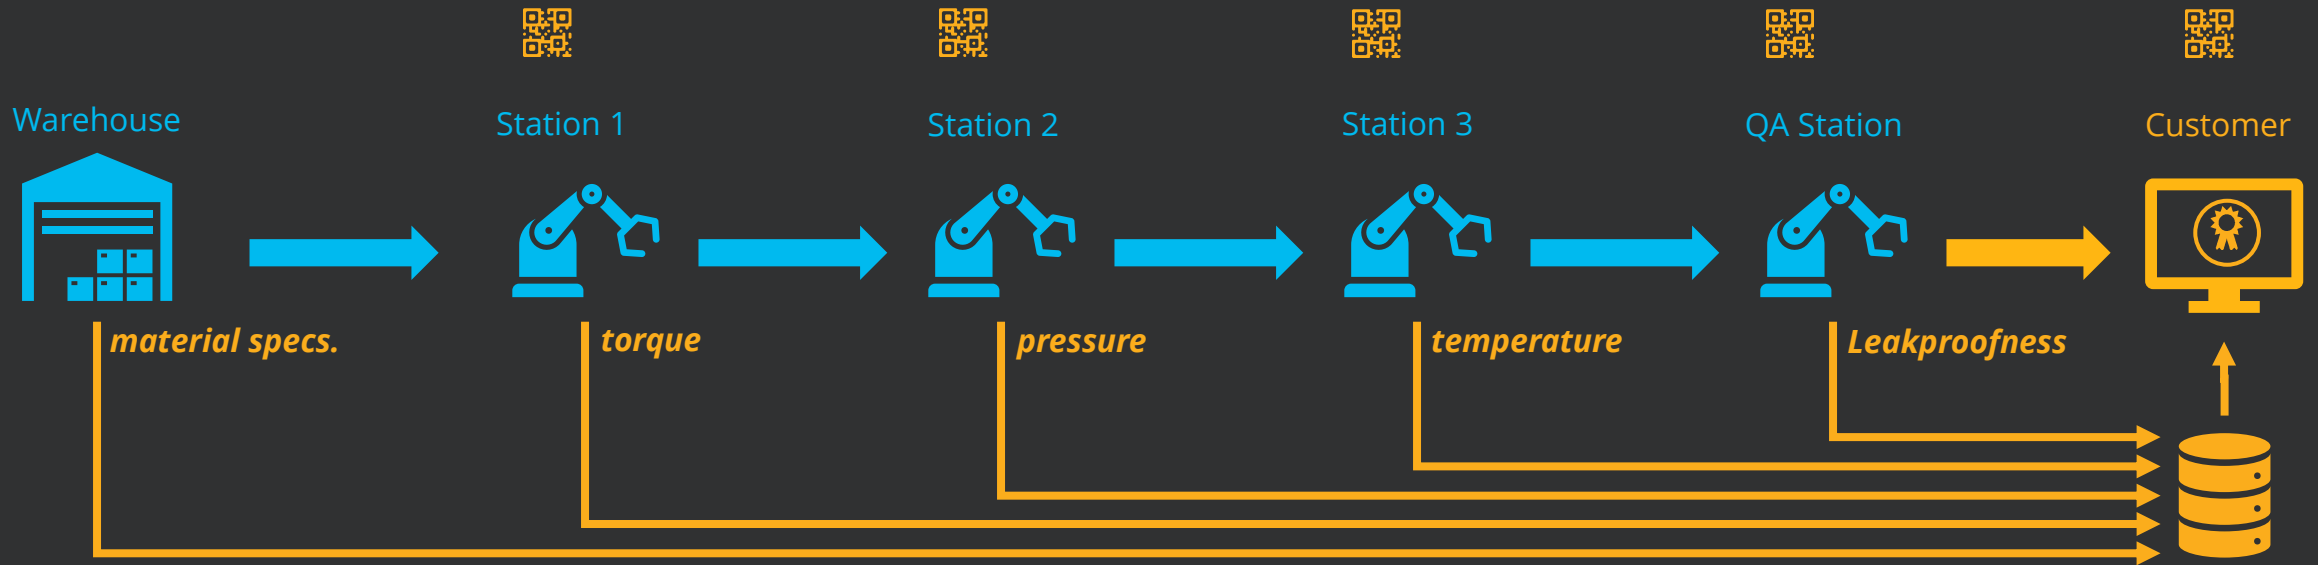

Paradigms for our customer:

1. **CONNECT** each information sources once and use gathered information many times
2. **AUTOMATE** information gathering
3. **SCALE** the usage of gathered information (proceed step by step)

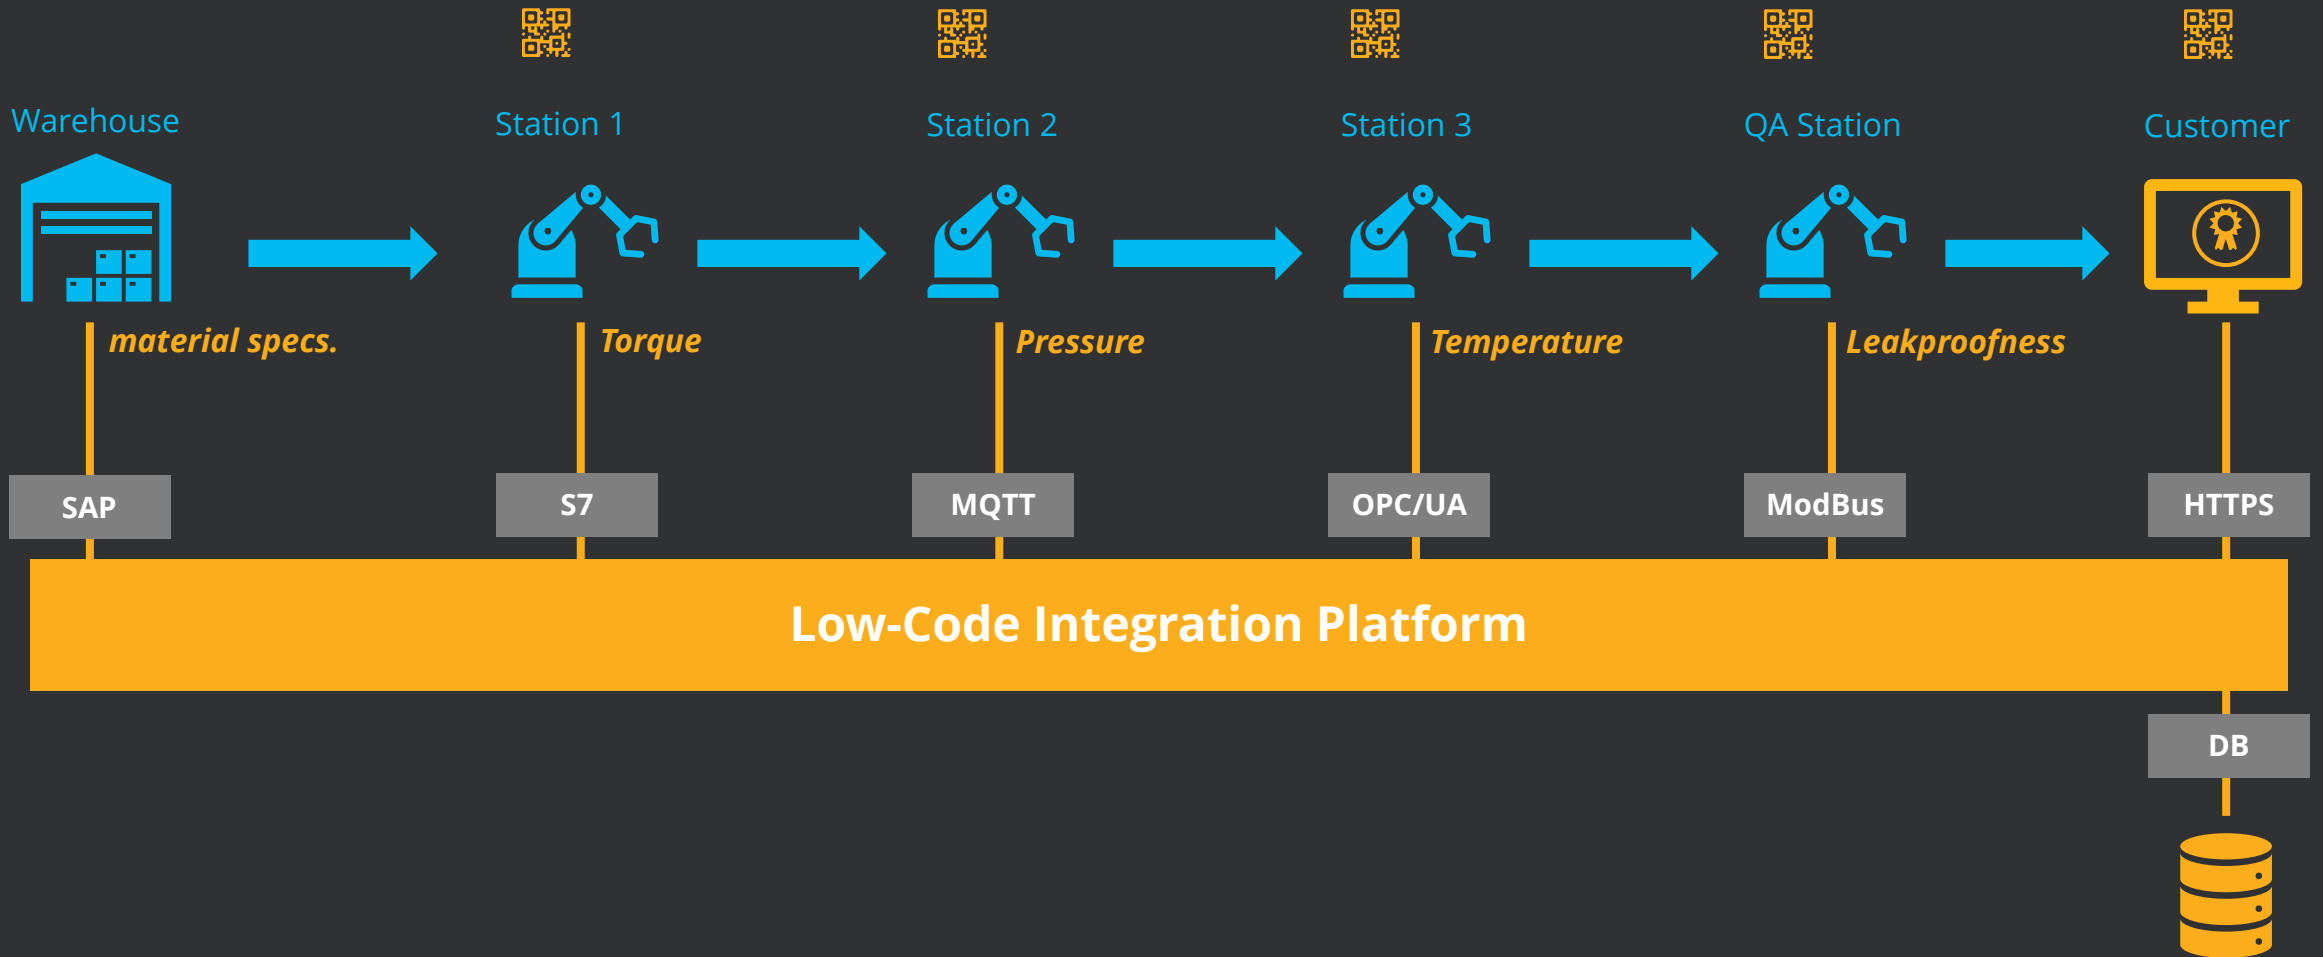

# Digital Product Passport

The challenge: connectivity

# Digital Product Passport

Challenge accepted - the solution

# There was a customer ...

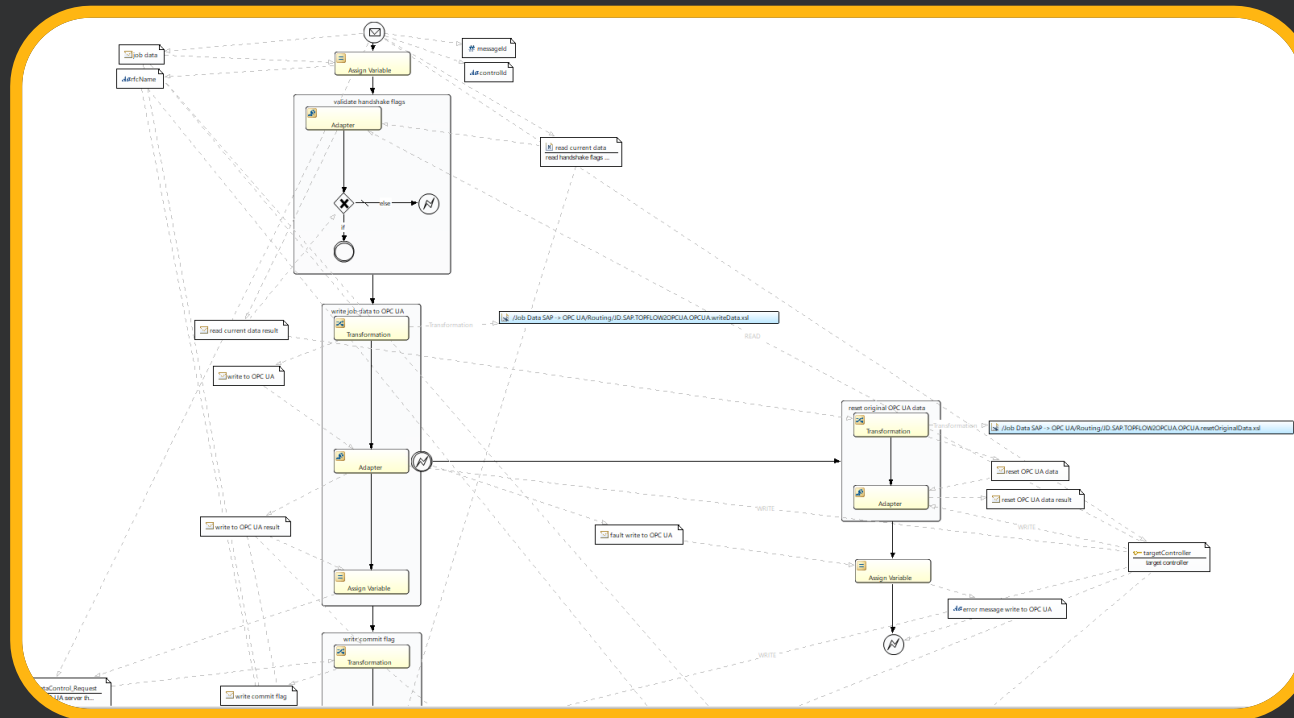

SQL

... that wanted a digital product passport

done, 25 PT!

Low-Code!

## There was a customer ...

... that wanted a digital product passport - **asap!**

And now it's easy to move on to ...

–an energy monitoring

–an emission reporting

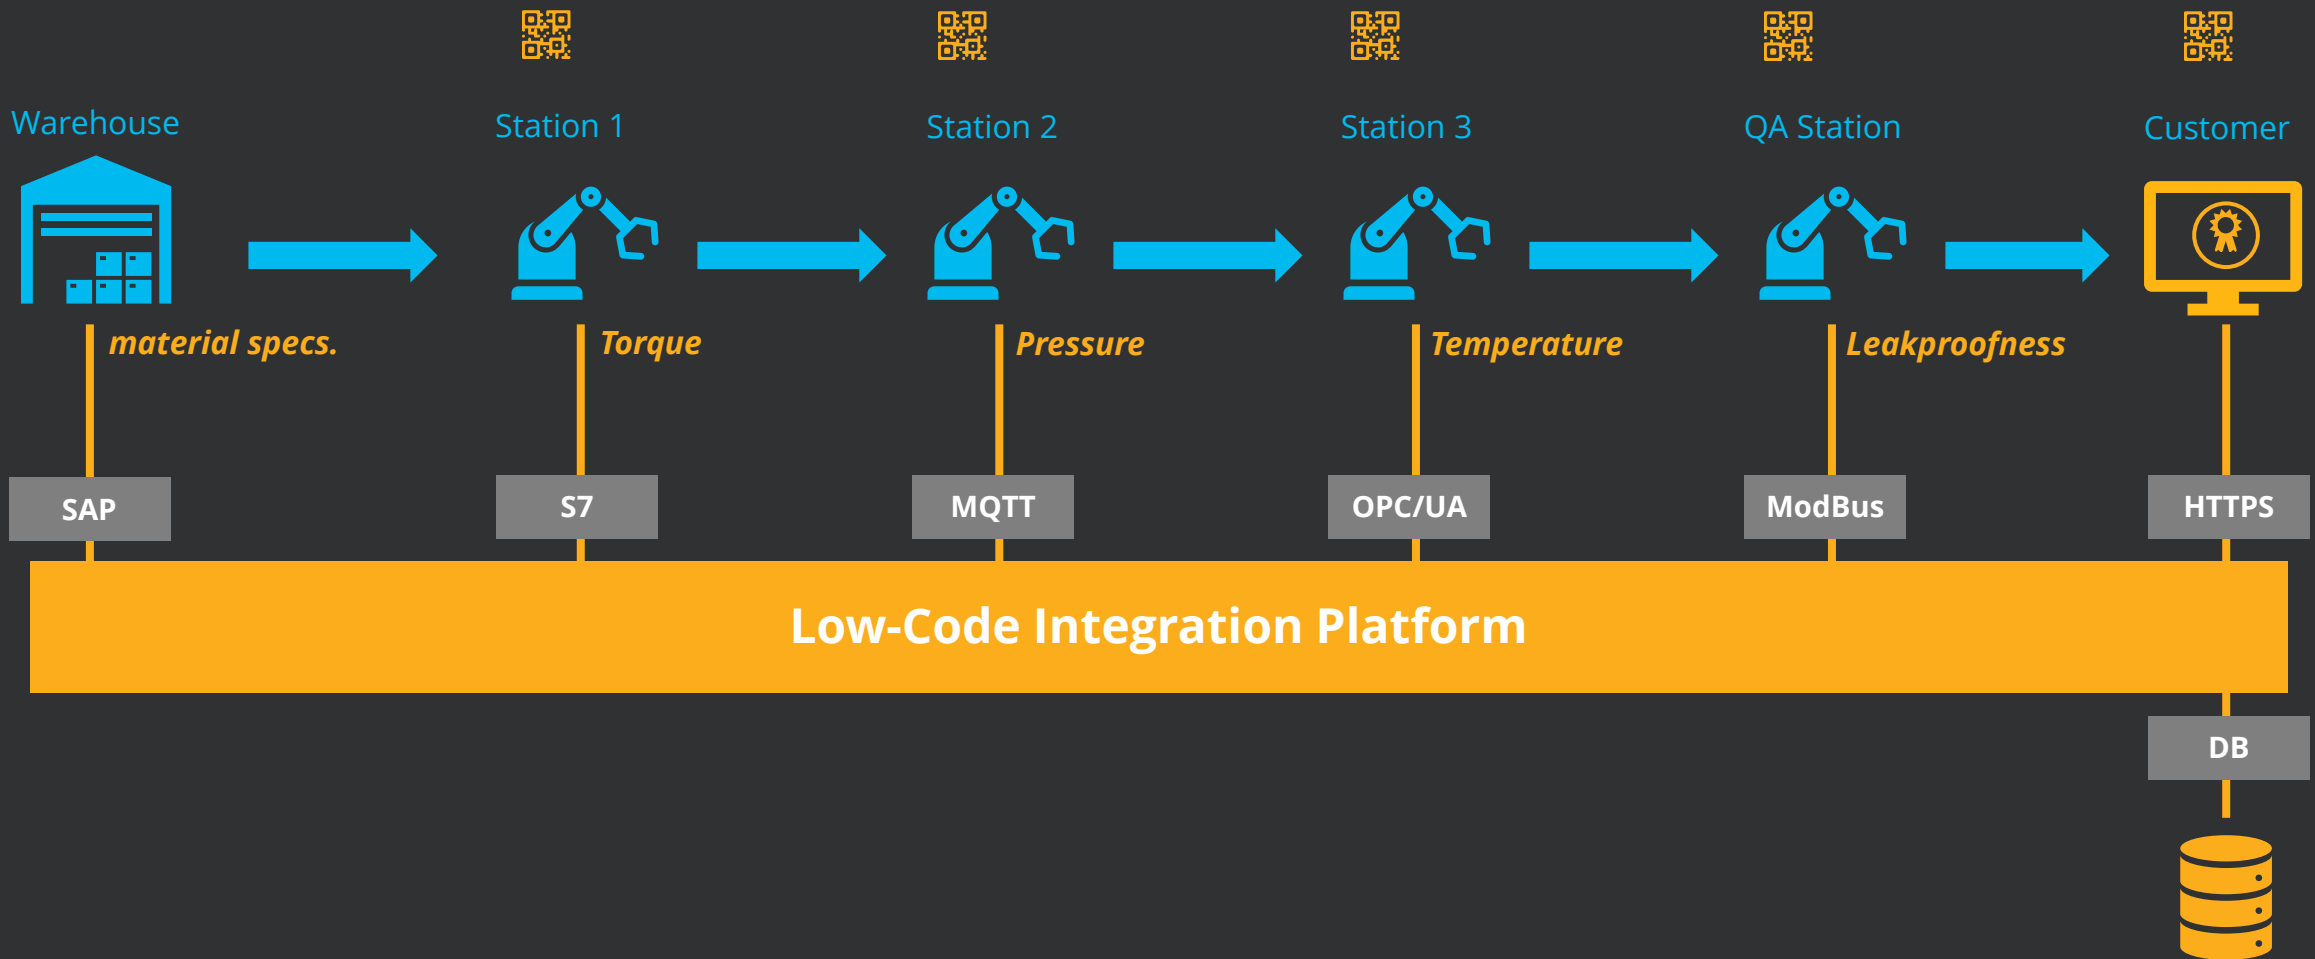

–a supply chain reporting

# Energy Management

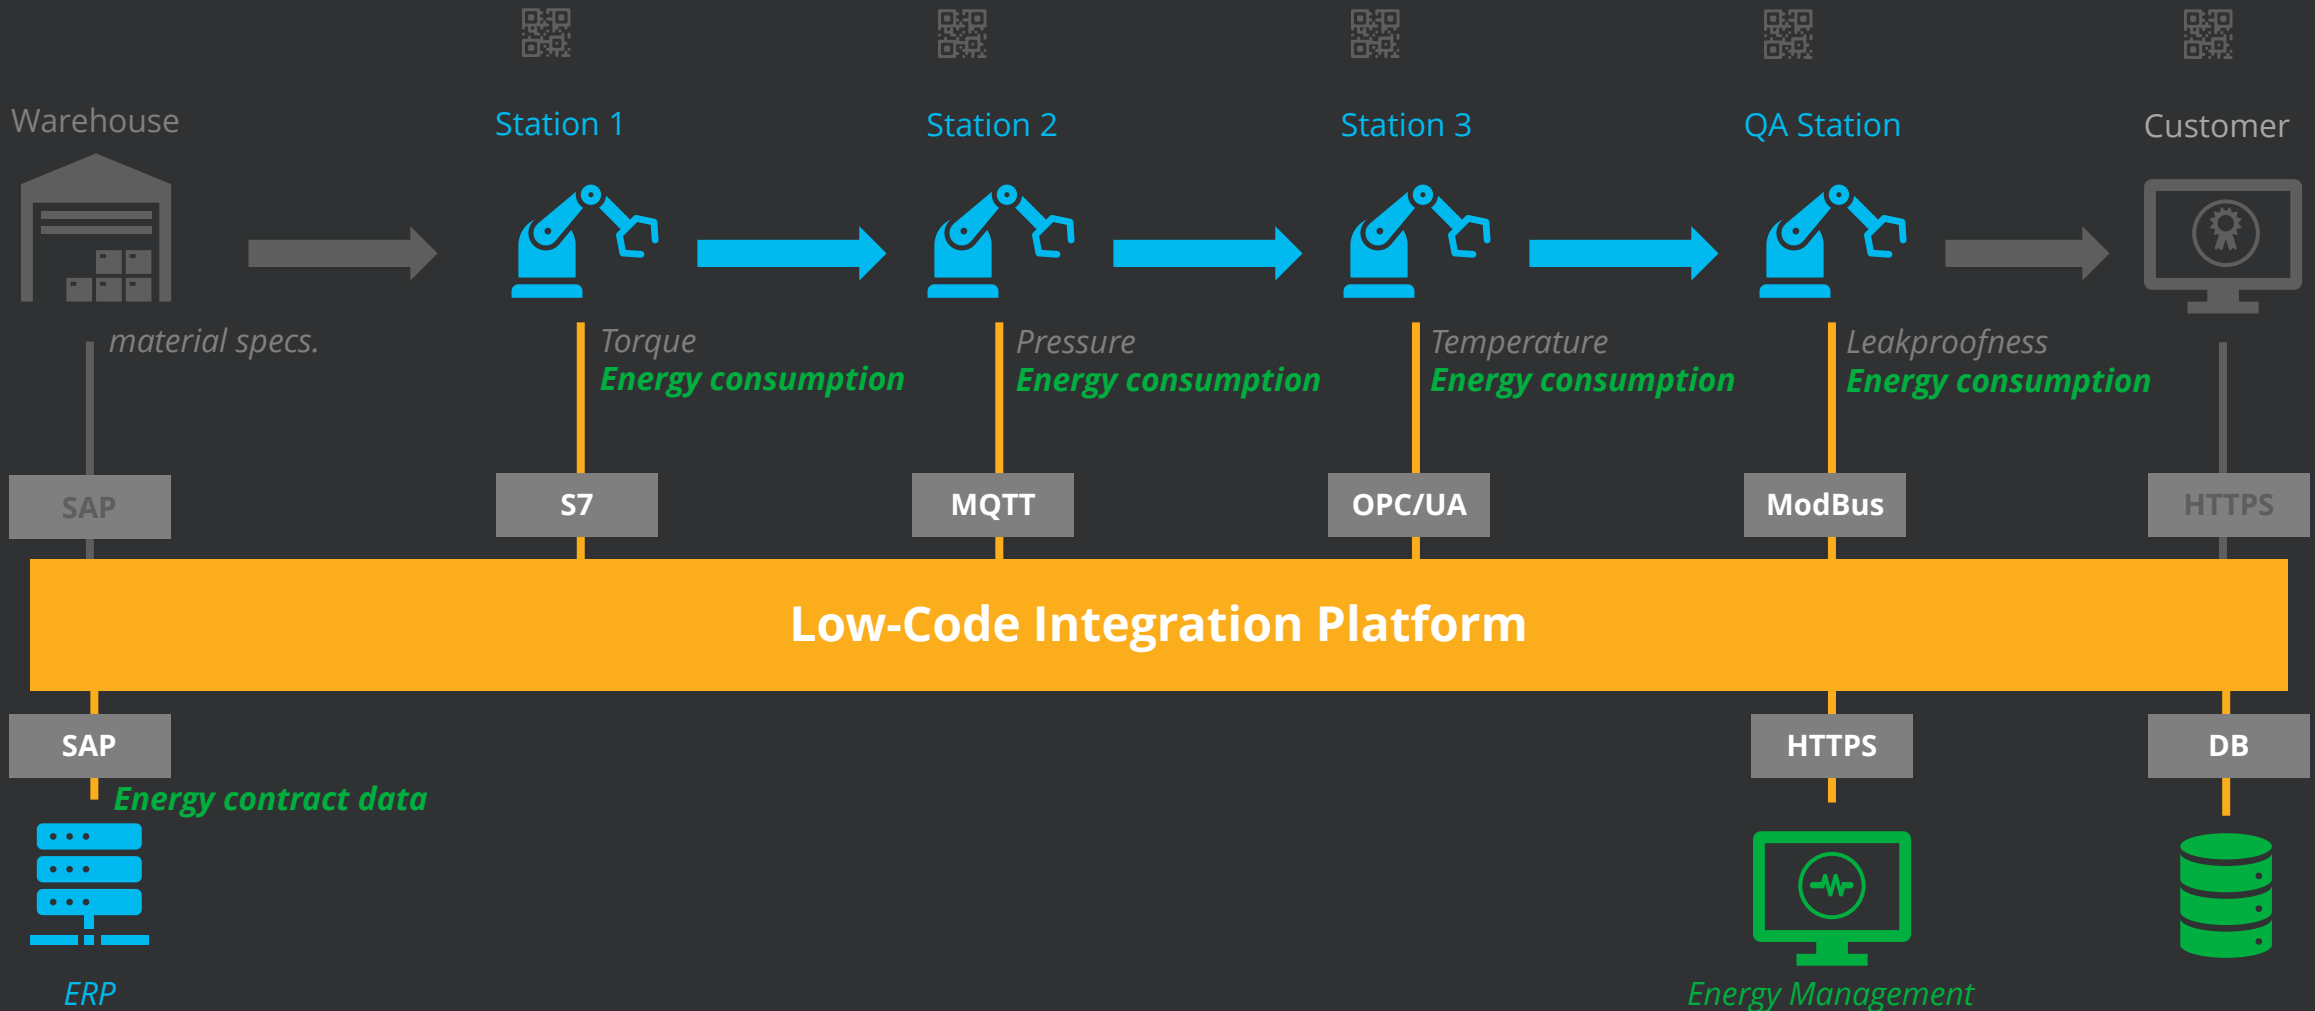

Starting point: Low-Code Platform

# Energy Management

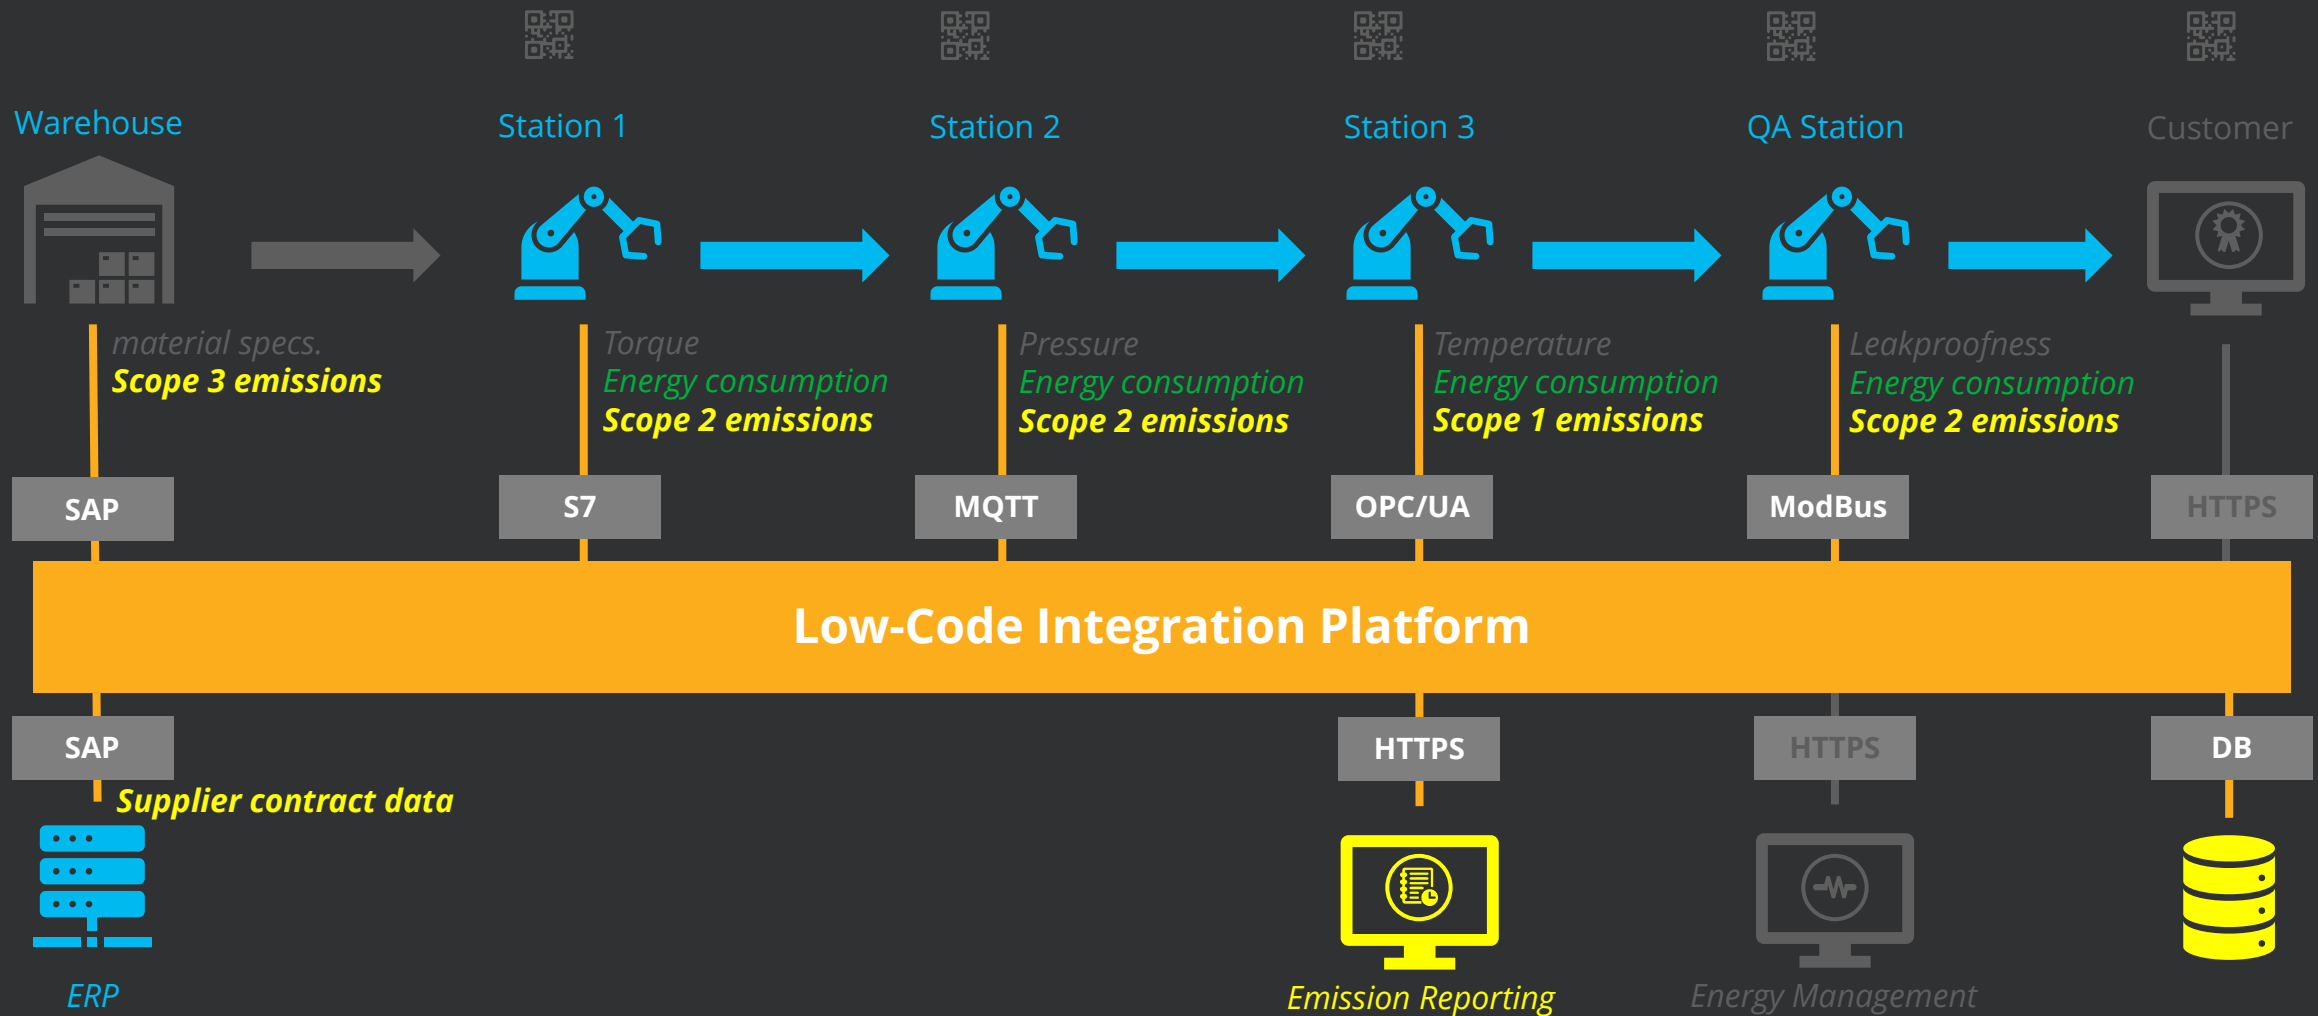

10 times faster to set up

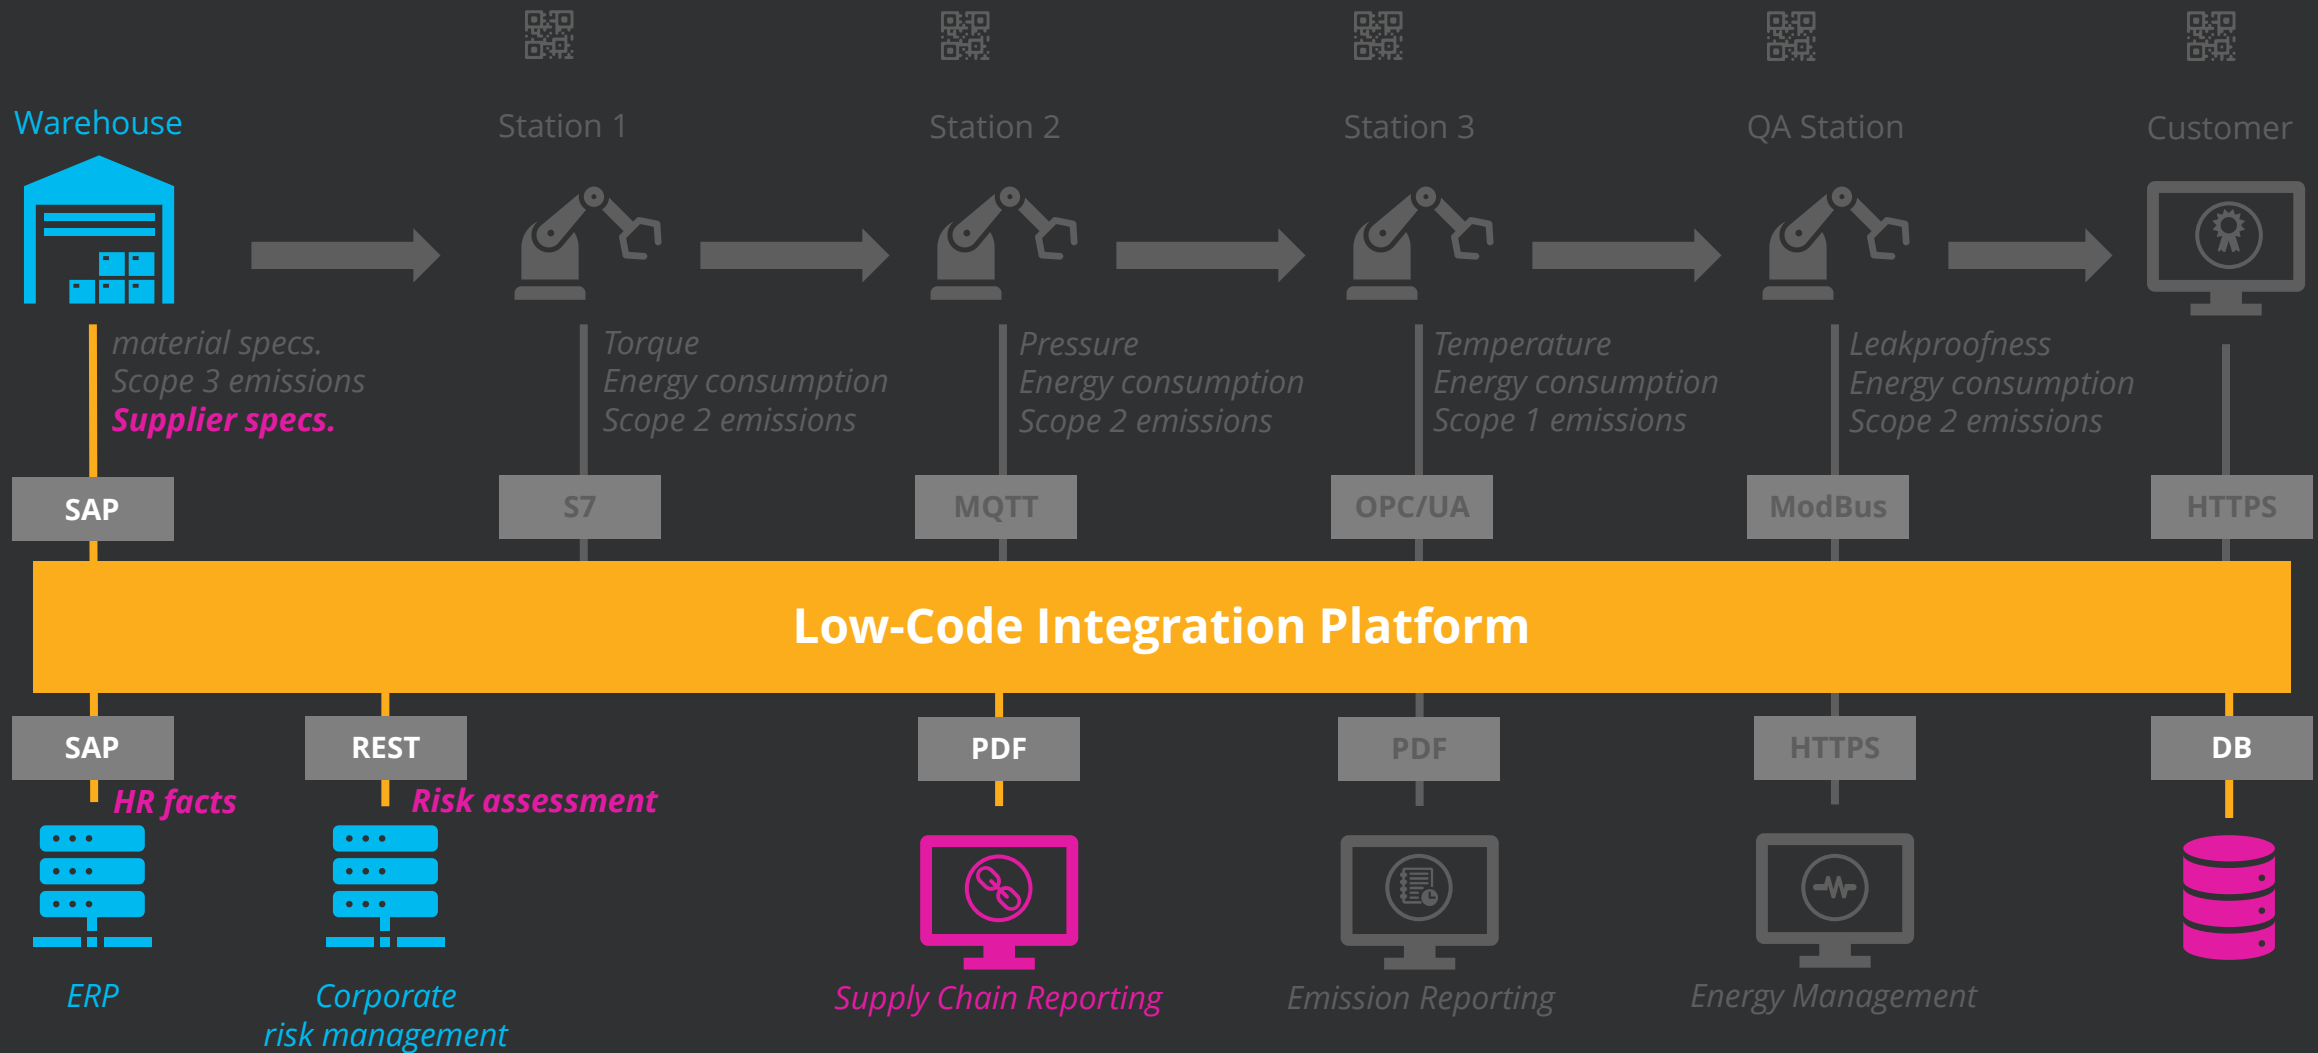

# Emission Reporting

10 times faster to set up

# Supply Chain Reporting

10 times faster to set up

# There's no need to go like this ... !

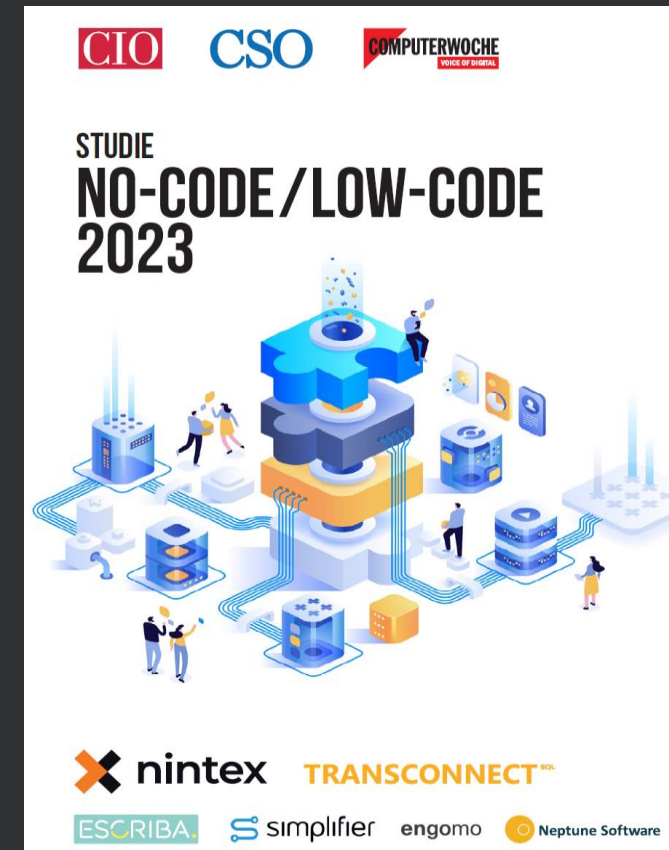

# No-Code / Low-Code Studie 2023

Von CIO, CSO und COMPUTERWOCHE Research Services in Zusammenarbeit mit TRANSCONNECT®, München 2023.

**70 %** "sehr zufrieden" und "zufrieden" mit No-Code / Low-Code Projekten

**80 %** entwickeln damit geschäftskritische Anwendungen

Jetzt Studie  
downloaden

# Thanks!
