Über Low-Code.

*„The way you get programmer productivity is not by increasing the lines of code per programmer per day.
That doesn't work.*

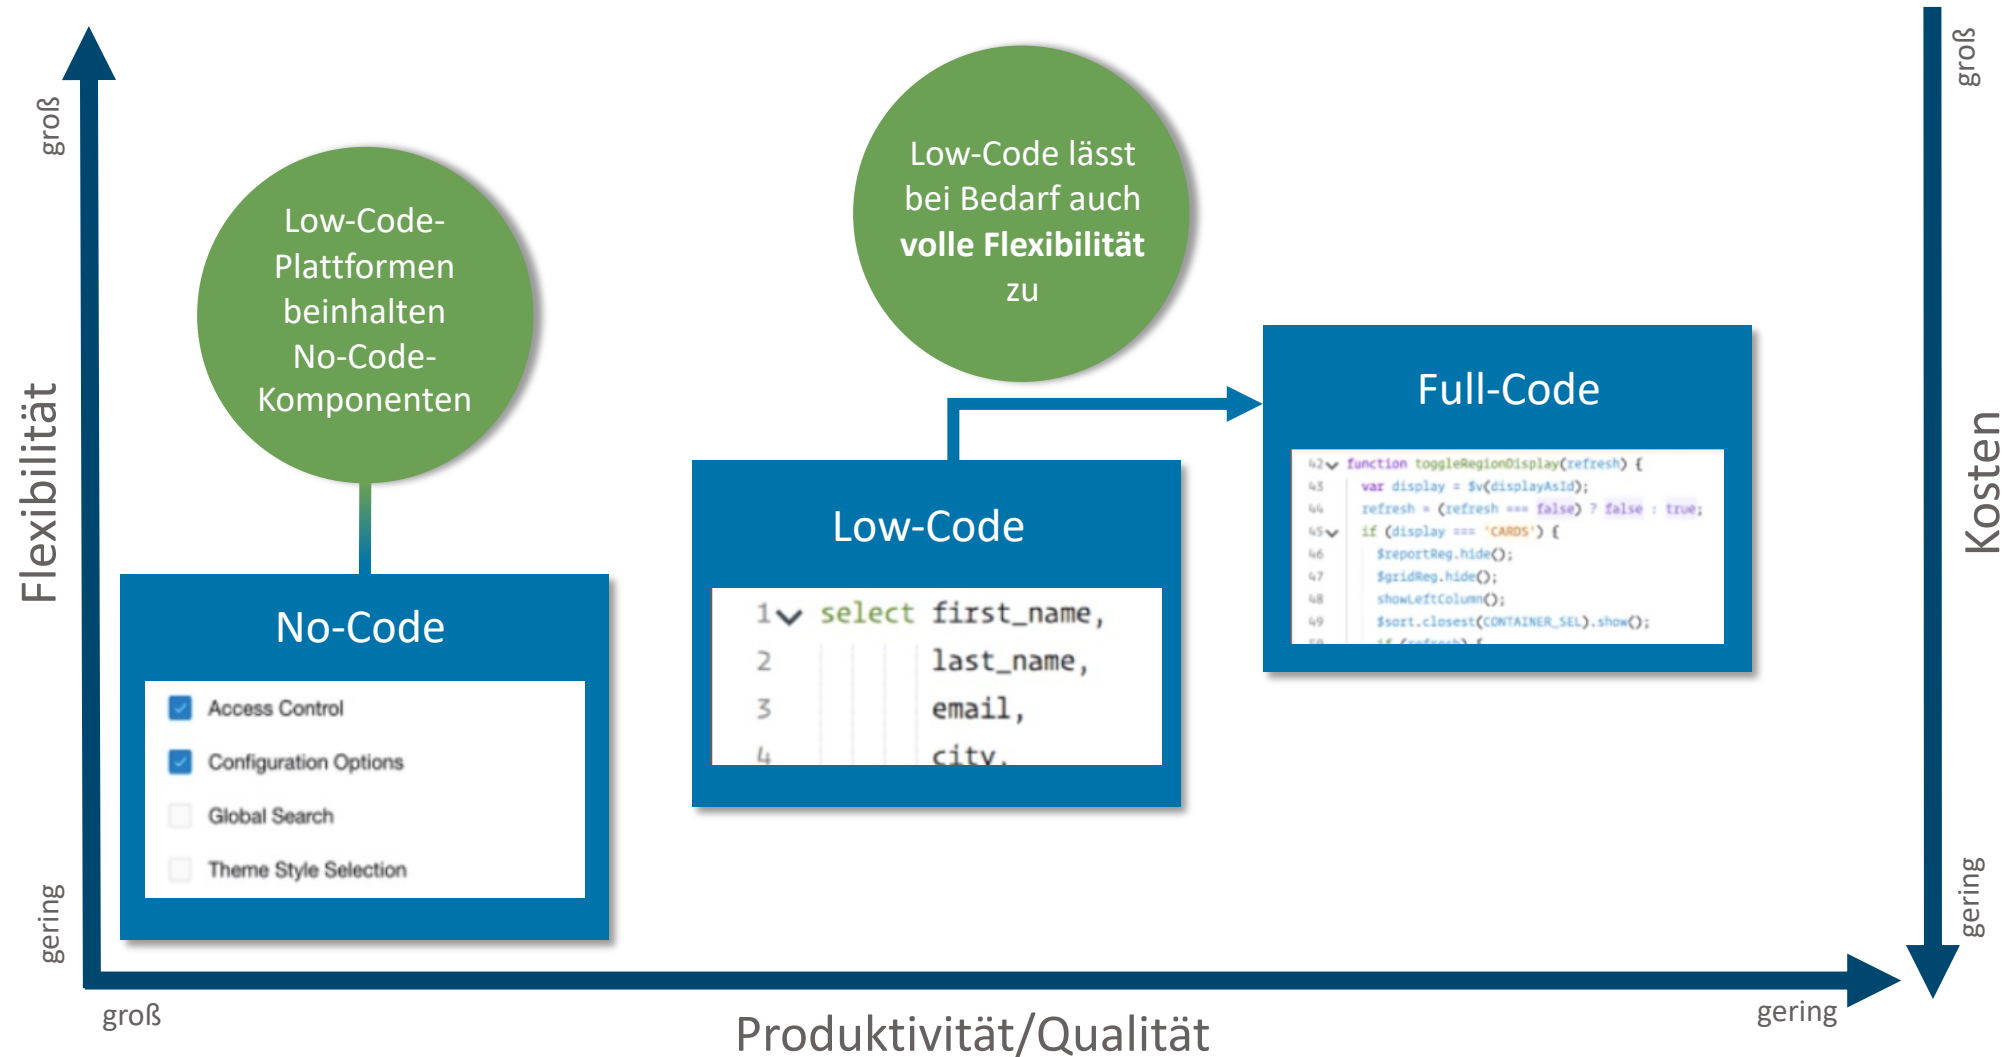

The way you get programmer productivity is by eliminating lines of code you have to write.

*The line of code that's the fastest to write, that never breaks, that doesn't need maintenance,
is the line you never had to write.“*

- Steve Jobs at WWDC '97¹

¹<https://www.youtube.com/watch?v=3LEXae1j6EY#t=41m26s>

Low-Code: Produktivität vs. Flexibilität.

Low-Code als Wachstumsmarkt.

Gartner prognostiziert, dass der weltweite Markt für Low-Code-Entwicklungstechnologien bis 2024 um 20% wächst.

"Business technologists, hyperautomation and composability will drive low-code technology adoption through 2026."

Stats zu Oracle APEX:

- Über 2.000.000 APEX-Anwendungen im Einsatz
- Über 3.000 APEX-Anwendungen werden täglich entwickelt
- Über 700.000 APEX-Entwickler weltweit

Table 1. Low-Code Development Technologies Revenue (Millions of U.S. Dollars)

| | 2021 | 2022 | 2023 | 2024 |
|---|---------------|---------------|---------------|---------------|
| Low-Code Application Platforms (LCAP) | 6,324 | 7,968 | 9,960 | 12,351 |
| Business Process Automation (BPA) | 2,416 | 2,585 | 2,761 | 2,940 |
| Multiexperience Development Platforms (MDXP) | 2,081 | 2,508 | 2,999 | 3,563 |
| Robotic Process Automation (RPA) | 2,350 | 2,892 | 3,401 | 3,879 |
| Integration Platform as a Service (iPaaS) | 4,680 | 5,668 | 6,668 | 7,838 |
| Citizen Automation and Development Platforms (CADP) | 554 | 732 | 953 | 1,232 |
| Other Low-Code Development (LCD) Technologies* | 92 | 109 | 126 | 146 |
| Total | 18,497 | 22,462 | 26,869 | 31,949 |

*Other low-code development technologies include rapid mobile app development (RMAD) tools and rapid application development (RAD) tools. RAD tools are/were on-premises only and desktop-bound applications mainly. Low code is the evolution of RAD to cloud and SaaS models.

Notes: Gartner defines a no-code application platform as an LCAP that only requires text entry for formulae or simple expressions. The LCAP market, therefore, includes no-code platforms. Furthermore, "no code" is not a sufficient criterion for tasks like citizen development, as many complex tooling configuration tasks are no code but still require specialist skills. Columns may not add to totals shown because of rounding.

Source: Gartner (December 2022)

Anwendungsbeispiele für Low-Code-Plattformen.

Lösungen für Unternehmen

- Self-Service-Portale auf der Grundlage bestehender Systeme

- Ersatz unflexibler und veralteter Systeme

Lösungen für Fachbereiche

- Schatten-IT reduzieren
- IT-Governance & Fusion Teams einführen
- Ermöglicht die Unterstützung in den Themen CI/CD, Testautomatisierung, Integration, Sicherheit und Skalierbarkeit durch die IT

~~Problem~~

Solution

MT GmbH: „Drink your own champagne“

Öffentliche Anwendungen:

- apex.mt-itsolutions.com
- lowcode.mt-itsolutions.com
- knowledgebase.mt-itsolutions.com

Interne Anwendungen (Auswahl):

- Pipeline Reporting (inkl. MS Dynamics Integration)
- Projekteinreichung (inkl. SAP-Integration)
- Verbleibendes Projektbudget (inkl. SAP-Integration)
- Urlaubsanträge (inkl. SAP-Integration)
- Reise genehmigung
- Fuhrpark-Management
- Profildatenbank

MITARBEITERPROFIL

Niels d.
MT 11185

Bereichsleiter Low-Code

In der IT: seit 2001

Position: Business Unit Manager

Schwerpunkte: Oracle APEX

Zertifizierungen: Oracle APEX Cloud Developer Professional

Sprachen: Englisch (C2 - Sprachkenntnisse auf M)

Low-Code Vendors

- Betty Blocks**: Rapidly build business applications.
- Enter Boost**: Low-code SaaS platform for SME's based on Azure web technology.
- Mendix**: Plan, develop, test, deploy, extend, and maintain enterprise apps with Mendix's industry-leading low-code capabilities and unmatched digital transformation expertise.
- Microsoft Power Apps**: Reduce your development costs and do more with less by enabling everyone to rapidly build and share low-code apps using Microsoft Power Apps.
- Oracle APEX**: Low-cost platform focused on data-centric web apps.
- OutSystems**: OutSystems combines visual, model-driven development with AI, DevOps, and cloud to deliver a modern application platform.

The screenshot displays the NVL BilderDB interface. At the top, the logo 'LÜRSEN' is visible. The interface includes a search bar with 'Yacht 142212' entered, and a 'Building Group' filter set to 'Building group'. The main area shows a grid of images categorized into three building groups:

- Building group 1:** Includes images of the yacht 'Nord' (ID 142212) and 'Eos' (ID 00142212).
- Building group 2:** Includes images of the yacht 'Nord' (ID 00142212) and 'Eos' (ID 0002).
- Building group 3:** Includes images of the yacht 'Nord' (ID 0001) and 'Eos' (ID 0003).

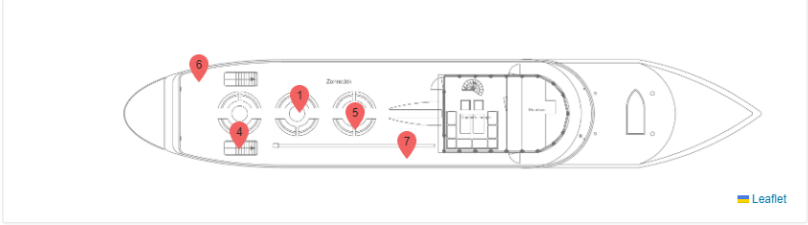

The grid also features various other images, including a sailboat, a sunset, and a yacht interior. Each image has a star icon for marking favorites. The interface also shows a 'Search for image tags' bar and a user profile 'user' in the top right corner.

The screenshot displays the 'CheckIT' software interface. The top navigation bar includes 'Sync', 'Go Offline', and 'Order 142212 - Yacht'. The left sidebar contains menu items: 'Status', 'Test Planning', 'Inspections', 'Remaining Items', and 'Administration'. The main content area is titled 'Test item' and contains a form with the following fields and options:

- Heading:** 6.1 Oil check
- Number:** 1
- Test characteristic:** Oil filter check
- Test method:** Visual inspection
- Room:** (empty)
- Set value:** (empty)
- Tolerance:** (empty)
- Actual value:** (empty)
- Is class relevant:** Yes No
- Is customer relevant:** Yes No
- Pre-Acceptance i.o.:**

Total 3

Low-Code mit der MT.

Unsere Low-Code-Expertise

- Analyse von Low-Code-Plattformen
 - mt-itsolutions.com/lowcode
- Implementierung mit:
 - Oracle APEX
 - Mendix
 - MS Power Apps

Unsere Oracle APEX-Erweiterungen

- Prozessmodellierung mittels Flows für APEX
 - flowsforapex.org
- Testautomatisierung mittels Low-Code Testing (LCT)
 - lct.software

The screenshot shows the 'Low-Code Vendors' page on the website. It features a navigation sidebar on the left with a search bar and several filter categories: Focus (Application Development (9), Back-End Integration (6), Process Automation (7)), Demo Video (Clear), Cost Category, Open Source, Primary Cust. Language, Country HQ, Offline for mobile apps?, Application Type, and Installation Location. Below the filters, it states 'MT - IT solutions is proud member of:' followed by the 'Low-Code ASSOCIATION' logo. The main content area displays six vendor cards in a 2x3 grid:

- Betty Blocks**: Rapidly build business applications. Watch demo on YouTube.
- Enter Boost**: Low-code SaaS platform for SME's based on Azure web technology. Watch demo on YouTube.
- Mendix**: Plan, develop, test, deploy, extend, and maintain enterprise apps with Mendix's industry-leading low-code capabilities and unmatched digital transformation expertise. Watch demo on YouTube.
- Microsoft Power Apps**: Reduce your development costs and do more with less by enabling everyone to rapidly build and share low-code apps using Microsoft Power Apps. Watch demo on YouTube.
- Oracle APEX**: Low-cost platform focused on data-centric web apps. Watch demo on YouTube.
- OutSystems**: OutSystems combines visual, model-driven development with AI, DevOps, and cloud to deliver a modern application platform. Watch demo on YouTube.
